Our Coffee

We use local beans from Wogan Coffee located on Elton Street. A wholly independent family company who have been living and breathing coffee for 50 years. Over the years they have learnt not just about coffee but how climate affects all our futures.

So for them, their mission is simple; to make sure that coffee doesn't cost the Earth, your pocket and the planet, and so they are pledging to be Carbon Neutral by 2030; building a better future for generations to come.
